AMS ATS-309 DUAL-SIDE TABBING MACHINE

Shown with optional feeder

Improves the efficiency and presentation of your mailing processes

What Does It Do?

The AMS ATS-309 can quickly and easily apply tabs or stamps to mail pieces. Tabbing is an ideal way to deliver eye-catching mail without the risk of it being pre-opened. The smooth and reliable tabber can apply up to 3 tabs or stamps at a time up to 38mm (1.5inch) in size on to material up to 6.35mm in thickness. Aimed at production mailers, the speedy tabber is capable of applying tabs to up to 25,000 mailings per hour. A unique feature of this tabber is that it can simultaneously tab both the front and a side or both sides in one pass.

How It Works

The AMS ATS-309 requires an automatic feeder for off-line tabbing. Each mail piece is fed into the tabber where it contacts an adhesive tab then travels through a set of rollers and the tab is tightly folded and sealed, creating a mail-ready piece. Accuracy is also important and tabs are folded tight to the edge of the piece, without drifting from left to right. Depending on document specifications, the mail piece can be fed through in different directions, to apply tabs in various locations.

The tabber can be used in-line with a conveyor so tabbed pieces can be stacked in a neat, sequential order for easy removal, or with other mailing equipment such as labellers and address printers.

Why Do I Need It?

If you produce large volumes of mail and are looking for an economical alternative to using traditional envelopes in direct mail campaigns the use of small adhesive tabs on mailings is the answer. Tabs can be placed on a wide variety of open-ended media including mail pieces, folded stock, double postcards, newsletters and booklets. Not only do tabs ensure closure, they are a non-intrusive option and let you take advantage of Royal Mail postal discounts due to the mailings being lightweight. The tabber is perfect for mailing houses, commercial and industrial users.

Key Features:

- Applies 1 to 3 Tab Per Mailing Piece
- Tabs Up To 25,000 Mailing Pieces Per Hour
- Multiple Tabber & Stamp Affixer
- Runs Clear, Frosted & Opaque Tabs
- Can Tab On Sides And front Simultaneously
- In-line or Stand Alone
- Accurate Placement With A Tightly Closed Tab
- Solid Steel Construction, Built To Last
- Optional Feeders and Conveyors

AMS - MAILING MADE EASY

SPECIFICATIONS	
One Pass Tab	1 to 3 per side or 1-3 on 1 side and 1 front
Speed: -	1 Tab - Up to 25,000 per hour 2 Tabs - Up to 15,000 per hour 3 Tabs - Up to 10,000 per hour - speeds are dependant on application
Tab Sizes	Min: 19mm (3/4") - Max: 38mm (1.5") Other sizes possible after test
Tab Types	Clear, Frosted, Opaque, Coloured, Circles, Squares
Material Sizes	Min:89mm x 127mm(LxW) Max:279mm x 381mm (LxW)
Material Thickness	Up to 6.35mm (1/4")
Reel Capacity	Two reels 305mm (12") diameter each
Take-Up Spools	Two included
Tab Placement Setting	Manual or automatic
Tab Sensor Calibration	Manual or automatic
Tab Size Calibration	Manual or automatic
TECHNICAL INFORMATION	
Machine Dimensions	(W)711mm x (H)660mm x (L with feeder) 864mm
Weight	97lbs
Electrical	230vAC 50/60Hz

OPTIONAL EXTRAS

Optional Equipment

AMS manufacture a range of machine cabinets that will easily support your mailing equipment as well as provide ample storage space. AMS also manufacture a range of conveyor stackers and dryers to complement your equipment thereby making it easier and more efficient to produce your mailings.

The AMS ATS-309 requires a feeder, which allows you to stack mailing pieces to be tabbed.

Mailing Supplies

AMS supply a wide range of low-cost consumables to suit our mailing equipment including Tabs.

Tabs come in many colours and there are even frosted and opaque options to suit the design of your mailing.

Why Choose An AMS Tabbng Machine?

AMS is one of the UK's leading suppliers of mailroom equipment. As well as having a dedicated team of knowledgeable experts to offer advice and bespoke solutions to suit your mailing needs, we have a well-trained customer support team and highly skilled team of field engineers to support you after your purchase.

This reliable and efficient after-care support service is provided to ensure you get the most out of your purchase. We also offer a comprehensive range of technical support and service packages that cover both equipment and software. Our maintenance packages are an economical way to maximise performance and the longevity of your machine, overall resulting in peace of mind.
