

AMS 8900 TRIPLE TABBING MACHINE

Improves the efficiency and presentation of your mailing processes

What Does It Do?

The AMS 8900 tabbing machine can quickly and easily apply tabs to folded mail pieces, making it an ideal way to deliver eye-catching mail without the risk of it being opened. The consistent and reliable tabber can apply up to 3 tabs or stamps at a time up to 38mm (1.5inch) in size and to mailings of up to 10mm in thickness. Aimed at medium range production mailers, the speedy tabber is capable of applying tabs at up to 20,000 mailings per hour.

How It Works

The AMS 8900 requires an automatic feeder for off-line tabbing. Each mail piece is fed into the tabber where it contacts an adhesive tab then travels through a set of rollers and the tab is tightly folded and sealed, creating a mail-ready piece. Accuracy is also important and tabs are folded tight to the edge of the piece, without drifting from left to right. Depending on document specifications, the mail piece can be fed through in different directions, to apply tabs in various locations.

The tabber can be used in-line with a conveyor so tabbed pieces can be stacked in a neat, sequential order for easy removal, or with other mailing equipment such as labellers and address printers.

Why Do I Need It?

If you produce large volumes of mail and are looking for an economical alternative to using traditional envelopes in direct mail campaigns the use of small adhesive tabs on folded mailings is the answer. Tabs can be placed on a wide variety of open-ended media including mail pieces, folded stock, double postcards, newsletters and booklets. Not only do tabs ensure closure, they are a non-intrusive option and let you take advantage of Royal Mail postal discounts due to the mailings being lightweight. The tabber is perfect for mailing houses, commercial and industrial users.

Key Features:

- Applies 1 to 3 Tabs Per Mailing Piece
- Tabs Up To 20,000 Mailing Pieces Per Hour
- Runs Clear, Frosted & Opaque Tabs
- In-line or Stand Alone
- Multiple Tabber/ Stamp Affixer
- Accurate Placement With A Tightly Closed Tab
- Solid Steel Construction, Built To Last
- Optional Feeders & Conveyors

SPECIFICATIONS	
Speed: - based on a Tri-fold 216mm x 279mm (8.5" x 11")	1 Tab - Up to 20,000 per hour 2 Tabs - Up to 12,000 per hour 3 Tabs - Up to 8,000 per hour - speeds are dependant on application
Tab Sizes	Min: 19mm (3/4") - Max: 38mm (1.5") Other sizes possible after test
Tabs	1 to 3
Stamps	1 to 3
Tab Types	Frosted, Opaque, Coloured, Circles, Squares
Material Sizes	Min: (L)75mm x (W)125mm Max: (L)325mm x (W)425mm
Material Thickness	Up to 10mm (3/8")
Tab Size Calibration	Fully Automatic
Tab Placement Setting	Manual or Automatic
Tab Sensor Calibration	Manual or Automatic
Media Height Adjustment	Head
Take-Up Spool	Standard
Reel Capacity	400mm (16") diameter 20,000 25mm (1") diameter tabs
TECHNICAL INFORMATION	
Machine Dimensions	(W)625mm x (L)675mm(with reel) x 1025mm (with feeder)

OPTIONAL EXTRAS

Optional Equipment

AMS manufacture a range of machine cabinets that will easily support your mailing equipment as well as provide ample storage space. AMS also manufacture a range of conveyor stackers and dryers to complement your equipment thereby making it easier and more efficient to produce your mailings.

The AMS 8900 requires a feeder, which allows you to stack mailing pieces to be tabbed.

Mailing Supplies

AMS supply a wide range of low-cost consumables to suit our mailing equipment including Tabs.

Tabs come in many colours and there are even frosted and opaque options to suit the design of your mailing.

Why Choose An AMS Tabbing Machine?

AMS is one of the UK's leading suppliers of mailroom equipment. As well as having a dedicated team of knowledgeable experts to offer advice and bespoke solutions to suit your mailing needs, we have a well-trained customer support team and highly skilled team of field engineers to support you after your purchase.

This reliable and efficient after-care support service is provided to ensure you get the most out of your purchase. We also offer a comprehensive range of technical support and service packages that cover both equipment and software. Our maintenance packages are an economical way to maximise performance and the longevity of your machine, overall resulting in peace of mind.
