

KR497BX FEED & PRINT SYSTEM

All-in-one feed and print system

What Does It Do?

AMS has combined the consistent feeding capabilities of their Kirk-Rudy KR497B Feeder along with their X-Jet inkjet printer to create a simple and cost-effective way to consecutively number, barcode, add expiration dates, lot and serial numbers on flat folded boxes and other products.

This basic version of the AMS X-Jet printer includes just 1 print head and is a revolution in variable data printing as it can print onto glossy, coated, porous and plastic stocks as well as other substrates.

The powerful and speedy all-in-one feed and print system is ideal for a broad range of mail and print applications and the robust feeder can feed tiny items from 2.54cm x 5.1cm up to 27.9cm x 27.9cm.

Key Features:

- Friction feed
- Easy to operate
- Easy to replace ink cartridges
- Built with X-Jet printer
- Ideal for consecutively numbering, adding barcodes, expiration dates, lot and serial numbers, fixed text and images
